ABOUT TEXTILE COMMISSIONER'S ORGANIZATION

Textile Commissioner's Organization is the professional body to advise Government on technical matters related to the industry. It is a specialist body maintaining close contact with the industry and thus serves as a bridge between industry and Government. It is manned with technically qualified people and enjoys the unique position of interpreting the industry's present problems and future requirements and hence converting it into recommendations for developing an appropriate policy for smooth performance of the Industry. TCO since its inception has been performing its role of acquisition and dissemination of data / knowledge with quest for excellence on one hand and to motivate textile industry to gain incremental share in global export trade on the other.

PERFORMANCE OF TEXTILE INDUSTRY DURING 2021-2022

Textile industry is the major industrial sector which plays an important role in the economic growth of the country. It continues to be the largest industry of Pakistan based on the local raw material and commands the strongest comparative advantages in the resources utilization. It is a labour-intensive industry and offers entry-level jobs for unskilled labour, especially in the clothing sector which has been particularly suitable for female workers who had limited income opportunities other than domestic or the informal income activities. The industry has expanded significantly since independence and now developed into one of the strongest export based industrial sub-sector. Since the raw cotton production has potential to increase therefore, there is great potential for horizontal and vertical expansion in the domestic production of textile and textile goods.

STRUCTURE OF INDUSTRY

2. At present, the industry consists of a large scale organized sector as well as highly fragmented cottage/small scale sector. The organized sector is essentially the integrated Textile Mills – large number of spinning units and a very small number of shuttle less looms units. The downstream industry (Weaving, Finishing, Garment, Towels & Hosiery), which has a great export potential, exists in un-organized sector. Some units have well grown to the international scale and are progressive in business philosophy. As on June 2022, Pakistan textile industry comprises of 517 textile units (40 composite units and 477 spinning units). There are 28,500 shuttle-less looms and 375,000 conventional looms. The Spinning Sector has grown with export demand & cotton production. Weaving & Processing Sector has followed. Air-Jet weaving units have been set up either as independent units or together with spinning or processing units. Some of the clothing units are in process of backward integration while on the other hand, spinning units are in the process of developing weaving, finishing and making up facilities to complete the chain. However, both Textile & Clothing sectors are complementing each other and horizontally/ vertically integrated either under same management or business tie-ups.

3. The performance of Textile Industry during the period remained under pressure. The industry was making all-out efforts to sustain its global share. Despite of global recession, the industry made investments in cotton spinning, weaving, textile processing and made-up sectors.

GROWTH OF TEXTILE INDUSTRY

4. The spindles capacity & looms capacity remained the same at 13.409 million and 9,084 respectively in 2021-2022. The yarn production decreased from 2.880 Billion Kgs in 2020-21 to 1.914 Billion Kgs in 2021-2022 (approximately).

GROWTH IN CAPACITY & PRODUCTION

CAPACITY	2018-19	2019-20	2020-21	2021-22
Spindles (Millions)	13.409	13.409	13.409	13.409
Rotors	198,801	198,801	198,801	198,801
Looms (Mill Sector)	9,084	9,084	9,084	9,084
Shuttle less	28,500	28,500	28,500	28,500
Power looms	375,000	375,000	375,000	375,000
Looms Total:--	412,583	412,583	412,583	412,583
PRODUCTION				
Yarn Production (M. Kgs)	3,430.1	3,431.2	2,880.3	1,914.1
Cloth Production: (M. Sq. Mtrs)				
Mill Sector	1,043.7	1,046.0	1048.4	1050.0
Non-Mill Sector	8,127.2	8,128.8	8138.2	8137.7
Total:--	9,170.9	9,147.8	9186.6	8187.7

GROWTH IN TEXTILES EXPORTS

5. The Pakistan Textile Industry contributes substantially to Pakistan export earnings. The exports basket contains a wide range of item viz Cotton fibres, yarn and cloth, yarn other than cotton yarn, tents, canvas, bedwears, towels, carpets, made-ups and variety of garments. The Textile Industry of Pakistan has potential for performing better in production and export by virtue of its inherent expertise in the international market for its conventional products. However, to maintain its position and moving in high value added products for the value increased market share, a large investment in machinery equipment and new technology is essential. The training of workers, improvement in labour productivity, research & development, product diversification and branding are the immediate areas for each company to focus. The export performance during the period under review is detailed below:

EXPORT OF TEXTILES & SHARE IN COUNTRY EXPORT

Products	In million US \$				
	2017-18	2018-19	2019-20	2020-21	2021-22
Cotton & Cotton Textile	13,220	13,031	12,212	15030	18861
Synthetic Fabrics	310	298	315	370	460

ANNUAL STATISTICAL REPORT FOR 2021-22

The report for the month of June, 2022 is for 408 mills in operation out of which 284 have supplied the data while data of 124 defaulting units have been estimated on the basis of their past performance whereas 109 units remain closed during the month.

CLOSED MILLS CAPACITY

A capacity of 349328 spindles and 3524 looms of 23 Mills closed between 1970-80 have not been included in this report which, according to a survey conducted by the Provincial Government have either sold out their machinery or there is no hope of its revival hence removed from the installed capacity.

Similarly, a capacity of 610795 spindles, 6768 rotors and 3835 looms of 36 mills closed between 1990-98 have not been included in this report which according to a survey conducted by the Provincial Government have either sold out their machinery or there is no hope of its revival.

Furthermore, a capacity of 157684 spindles, 15190 rotors and 699 looms of 21 mills closed between 1999-2014 have not been included in this report to a survey conducted by the Provincial Government and TCO have either sold out their machinery or there is no hope of its revival.

DETAIL OF 517 REPORTING MILLS (EFFECTIVE INSTALLED CAPACITY)

Spindles, Rotors and Looms installed as on 30.06.2022 in Cotton Textile mills are 13409420, 198801 & 9084 respectively. The number of Spindles, Rotors, and Looms worked during the month were 11338265, 126583 & 6942 respectively.

CONSUMPTION & STOCK OF RAW COTTON

The Mills consumed 228.875 M.Kgs or 1346324 Bales of raw cotton and 90.112 M.Kgs or 530071 Bales of Man-made fibre during the month under the report. The Mills had a stock of 605.915 M.Kgs or 3623029 Bales of Raw cotton and 43.164 M.Kgs or 253906 Bales of Man-made fibre at the end of the month.

PRODUCTION & CONSUMPTION OF YARN

During the month the production of yarn was reported at 288.030 M.Kgs including 99.939 M.Kgs of Blended Yarn. Out of the production of 288.030 M.Kgs of yarn, mills consumed 9.743 M.Kgs and 34.373 M.Kgs was exported. The remaining 243.914 M.Kgs was consumed by the ancillary industries including power looms, canvas looms, towel & hosiery etc.

YEAR-WISE COMPARATIVE PERFORMANCE OF TEXTILE INDUSTRY (ALL SORTS)

	June. 2022	June. 2021		INCREASE/DECREASE
CONSUMPTION (000 Kgs)				
Raw Cotton	228820	228875		0.02
M.M.Fibres	90112	90112		0.00
TOTAL	318932	318987		0.02

YARN PRODUCTION (000 Kgs)

Coarse	16455	74179		77.82
Medium	29441	62446		52.85
Fine	26207	36968		29.11
S.Fine	15392	9954		-54.63
Mixed	3980	4544		12.41
Sub-Total of Cotton Yarn	91475	188091		51.37
Blended Yarn	99939	99939		0.00
Total Production of Yarn	191414	288030		33.54

CLOTH PRODUCTION (000 Sq.M)

Cotton Cloth	80933	80947		0.02
Blended Cloth	6562	6538		-0.37
Total Production of cloth	87495	87485		-0.01

EXPORT (IN 000)

Cotton in Kilogram	90	95		5.26
Yarn in Kilogram	25063	34373		27.09
Cloth in Sq.Metre	30375	32091		5.35

A brief note on various magnitudes of the industry depicting the capacity installed, actually worked during the month of June 2022 is given at a glance.

	SPINDLES	ROTORS	LOOMS
Capacity installed:	13409420	198801	9084
Capacity actually worked:	11338265	126583	6384

WORKING POSITION OF MILLS

Out of 408 Mills in operation, 124 Mills have failed to submit the monthly returns. Their past performance therefore, has been taken into account. However, 4 composite and 105 spinning total 109 units were out of operation.

The comparative performance of machinery in term of working hours is as under:

	June, 21	June, 22	INCREASE DECREASE
Spindles Worked (Million hours)	6880.00	6613.04	-3.88
Rotor Worked	52.96	40.23	-24.04
Looms Worked	2.95	2.69	-8.81
Avg.count spun for Ring	27.05	24.00	-12.71
Avg.count spun for Rotor	10.24	10.00	-2.40
Avg.pick woven	55.68	56.00	0.57
